South West Regional Gathering
Food System Sustainability –
Addressing Local Barriers to Success

This one-day forum will bring together people from diverse sectors to identify and address current challenges to supporting a local, sustainable food system.

Participants will...
- Better understand the mandates, interests and challenges faced by various sectors involved in our local food system.
- Discuss and determine what actions might be taken to address these challenges at the local, regional, provincial or national level.
- Learn about local initiatives which have successfully supported the local food system.
- Identify “next steps” that are timely, relevant and actionable.

When
Monday, March 18, 2013
(Registration/ Networking 9:30)
Program - 10 am to 3 pm

Where
Grey Bruce Health Unit
101 17th Street East
